Nikku Pooja | Data Analyst

poojanikku1999@gmail.com | 8778414518 | Chennai, India | www.linkedin.com/in/pooja-nikku

SUMMARY

Results-driven Data Analyst with 2.5+ years of hands-on analytics experience and nearly 7 years in enterprise IT, combining deep technical expertise with strong business acumen. Skilled in transforming complex datasets into actionable insights using SQL, Python, and Power BI. Proven track record of building dashboards that drive leadership decisions, automating reporting workflows, and reducing operational inefficiencies across ITSM and production environments. Adept at working across cross-functional teams to deliver data-driven solutions that create measurable impact.

SKILLS

Analytics & Querying: SQL (Advanced), Python (Pandas, NumPy), Exploratory Data Analysis, Statistical Analysis, Hypothesis Testing

Visualization & BI: Power BI, DAX, Power Query, Matplotlib, Seaborn, Dashboard Development, KPI Reporting

Data Engineering: ETL Pipelines, Data Cleaning & Transformation, Data Modelling, Data Validation

Tools & Platforms: Advanced Excel (Pivot Tables, VLOOKUP), Jupyter Notebook, Git, ServiceNow, Splunk

Soft Skills: Stakeholder Communication, Cross-functional Collaboration, Root Cause Analysis, Business Insights

PROFESSIONAL EXPERIENCE

Data Analyst | Tata Consultancy Services (TCS)

10/2023 – Present | Chennai

- Performed **Exploratory Data Analysis (EDA) and root cause analysis** on operational and incident datasets across **30+ enterprise applications** using **SQL and Python (Pandas, NumPy)**, identifying key failure patterns that contributed to ~25% of incidents and reducing repeat incidents by **~20%**.
- Developed **15+ interactive Power BI dashboards** using **DAX and Power Query** to monitor KPIs including SLA adherence, failure trends, and incident volumes, supporting **monthly leadership business reviews**.
- Automated **monthly KPI reporting across 10+ teams** using optimized **SQL queries and Excel templates**, reducing manual effort by **~30%** and saving **~8 hours per month**.
- Performed **weekly data validation across 5 monitoring systems**, resolving **50+ data discrepancies** and improving reporting accuracy by **~25%**.
- Delivered **quarterly insight reports to 5+ stakeholders**, influencing **3 operational process improvements** that enhanced overall efficiency.

Production Support Analyst | Tata Consultancy Services (TCS)

06/2019 – 09/2023 | Chennai

- Monitored batch workflows across **30+ enterprise applications**, maintaining **99.5% SLA compliance** over **4 years**
- Investigated **200+ system failures** using SQL queries, Splunk logs, and monitoring tools, achieving **<4-hour mean time to resolution (MTTR)**
- Managed **1,000+ incident tickets** in ServiceNow with **98% on-time resolution** rate
- Collaborated with **10+ cross-functional teams** (development, infrastructure) to troubleshoot critical production issues, reducing downtime by approximately **20%**

PROJECTS

Retail Analytics & Store Performance Analysis (Quantium Simulation)

- Analyzed 100K+ transactions using Python (Pandas, NumPy) and SQL to identify customer behaviour and sales trends
- Performed uplift testing to evaluate store performance and identify high-performing stores and growth opportunities
- Built Power BI dashboards to present insights and support data-driven business decision-making

QuickKart Marketplace & Logistics Analytics (Case Study)

- Analysed 100K+ orders and 170K+ line items across 12 Indian cities using Python (Pandas) and SQL to diagnose a ~30% order delay rate impacting customer retention and GMV
- Identified that third-party carriers (BlueDart, Delhivery, Ekart) had 50–60% delay rates vs. ~12–30% for InHouse logistics; flagged Chandigarh and Delhi lanes as highest-risk routes (>60% delay rate)
- Quantified that customers with a delayed first order had an 81.8% 90-day repeat rate vs. 82.7% for on-time deliveries, demonstrating measurable retention impact at scale
- Built an interactive Streamlit dashboard for Marketplace and Logistics stakeholders with date range, city/category/carrier filters, KPI strip, time-series and bar chart views, and auto-generated business insights

CERTIFICATION

Google Data Analytics Professional Certificate – Coursera
Quantium Data Analytics Job Simulation – Forages

EDUCATION

Bachelor of Science (B.Sc.) in Computer Science 06/2016 – 04/2019 | Chennai
Sri Kanyaka Parameswari Arts and Science College
